Attention Beet Growers

Beet Growers wishing to obtain pulp for home feeding are requested to forward their application for amount desired to John F. Barton, Manager, 416 24th St., Ogden, Utah, before August 20th.

After that date no applications will be received.

If you have not received application blank, call at our office for one.

No telephone orders received

AMALGAMATED SUGAR CO.

POST OFFICES IN THE STATE OF UTAH

Among other political plums for which the Democratic patriots of Utah are clamoring, are thirty-eight postoffices, which pay salaries ranging from \$1000 to \$3900 a year. The highest salaried office, of course, is at Salt Lake City. Next is Ogden, \$3300 Provo, \$2700; Logan, \$2700, with others ranging from Bingham at \$2500 down to Hyrum at \$1000. Following is a list of the thirty-eight offices, together with the time of the expiration of the terms of the postmasters and the salaries attached to the offices:

Name and expiration of term	Salary
American Fork, May 18, 1914	\$1600
Beaver City, May 1, 1915	1300
Bingham, March 2, 1915	2400
Brigham City, March 13, 1916	2000
Cedar City, March 2, 1915	1100
Coalville, June 19, 1914	1200
Ephraim, April 25, 1914	1400
Eureka, June 7, 1916	1800
Garfield, February 11, 1913	1500
Garland, February 2, 1914	1200
Green River, June 14, 1916	1100
Heber City, January 31, 1915	1400
Hesper, March 17, 1914	1400
Hyrum, January 1, 1913	1000
Lehi, April 24, 1912	1500
Logan, January 18, 1916	2700
Manti, April 1, 1914	1400
Midvale, June 16, 1913	1400
Milford, December 13, 1913	1300
Mount Pleasant, February 17, 1915	1500
Nephi, March 13, 1916	1500
Ogden, January 11, 1913	3300
Park City, February 23, 1915	2000
Payson, December 17, 1912	1300
Pleasant Grove, December 13, 1914	1200
Price, January 22, 1913	1700
Provo, March 1, 1917	2700
Richfield, February 18, 1914	1700
St. George, December 20, 1915	1300
Salina, June 20, 1915	1100
Salt Lake City, March 2, 1914	3900
Sandy, June 27, 1915	1300
Spanish Fork, January 15, 1916	1500
Springsville, June 23, 1914	1500
Sunnyside, June 15, 1913	1300
Tonoe City, June 21, 1914	1600
Tremonton, January 1, 1913	1300
Vernal, December 13, 1914	1700

From the foregoing list it will be seen that the terms of offices of postmasters at Garfield, Hyrum, Lehi, Ogden, Payson, Price, Tremonton, Midvale and Sunnyside have expired. The Ogden vacancy has been filled by the appointment of W. W. Browning and other vacancies, it is expected will be filled at an early date. There is thought to be but little question that the salaries in a number of the larger offices, at least, including Salt Lake City, Ogden, Provo, Logan and Brigham City, will be increased from 10 to 15 per cent, owing to the large increase in revenue caused by the parcel post business.—Tribune.

BUTCHER GIVEN HIS LIBERTY BY JUDGE

At the termination of the preliminary hearing in the municipal court yesterday, Judge W. H. Reeder discharged John T. Butcher, a former instructor in the State Industrial school, who had been charged with a statutory crime.

The testimony of witnesses for the state and the defense contradicted the girl's story. The defense showed that at the time of the alleged crime, Butcher was in the presence of other employees.

Butcher and his wife both took the stand in behalf of the defense.

AUTO TIPS INTO ICY WATERS OF RIVER

Blackfoot, Idaho, Aug. 14.—An accident of unusual severity occurred this afternoon to A. Whitten of this city and a party of friends, as they were automobile riding near the Scott ranch, north of the city. Besides Mr. Whitten there were in the car Mrs. Whitten, his wife, Mrs. John Davis, aged 70 years; Mrs. John Cotton and four children.

While riding on the main road north of Blackfoot, Mr. Whitten, who was driving, lost control of the car on the bridge that crosses the Corbett irrigation canal and the car backed off the bridge and fell into the water below, a distance of eight feet.

Mrs. Cotton, though badly bruised, was able to get herself, children and Mrs. Davis out of the water onto the bank, but Mr. and Mrs. Whitten were wedged under the car in such a position that it was barely possible for them to keep their heads above the water. Charles Cotton, aged 18, the son of Mr. and Mrs. John Cotton, managed to pry the car up so that Mr. Whitten was released, and together they tried to lift the car to release Mrs. Whitten, who weighs more than 300 pounds. In their efforts the car seems to have been loosened from its position and to have fallen still further into the water upon Mr. and Mrs. Whitten. More than two hours were required before the sufferers were released. Meanwhile Dr. Mitchell and a corps of nurses had been summoned from Blackfoot hospital. These joined in the work of rescue and relief. Mr. and Mrs. Whitten were removed to the Blackfoot hospital for treatment. Examination showed that Mrs.

Whitten had suffered a compound fracture of the right leg. Mr. Whitten's leg was broken below the knee and his skull was fractured. The long exposure in the icy waters of Snake river so thoroughly chilled Mr. Whitten that it was first necessary to thaw him out with warm blankets. Mrs. Whitten's injuries are not regarded as serious, but grave fears are held as to the recovery of Mr. Whitten, as it is thought the exposure may bring on pneumonia.

SULZER HAS NO POWER

Albany, N. Y., Aug. 15.—The Empire state yesterday found itself in the unprecedented position of having two governors, each claiming full power and each "holding the fort" in Albany's capitol.

Rumors that Sulzer would have the aid of the state militia if he decided to use force received their quietest when Adjutant General Hamilton, head of the New York National Guard, gave full recognition to the claims of Martin H. Glynn as acting governor. Hamilton, though appointed by Sulzer, sent a message to Mr. Glynn asking if there were any orders for the national guard. The acting governor replied that there were none. Glynn has now under his control the military and financial departments of the state government, which strongly intrenched him in his position.

Mitchell May, secretary of state, notified Mr. Glynn late yesterday afternoon that he would recognize him as the de facto governor and would give him access to the great seal of the state. He also sent word that he would refuse use of the seal to Sulzer.

With these developments slowly bringing order out of the chaos and demoralization that prevailed as soon as the impeachment proceedings were brought against Mr. Sulzer, Mr. Glynn began the planning of steps to establish his rights and powers as governor.

Late in the afternoon Sulzer held a conference with ex-Judge Countryman and Attorney P. C. Dugan, an Albany lawyer. The plan of action decided upon was not announced at the termination of the conference, but it was learned that Glynn would probably try to oust Sulzer.

It was rumored during the day that there would be no delay in securing some court ruling on the claims of the two men. According to information given out this evening, Sulzer had during the afternoon signed a requisition papers for the return of a fugitive to West Virginia. It was intimated that this would be the first test, as the officers might refuse to recognize Sulzer as governor and the prisoner might secure a writ of habeas corpus and fight the Sulzer requisition as illegal.

The relations between this state and her sisters are disrupted as well as those existing between the two governors and the various departments of the government.

BRIGHAM CITY'S AUTO FIRE ENGINE

Brigham City, Aug. 14.—At the meeting of the city council last evening Messrs. Holt and Taylor, the fire department committee that had spent the previous day in Salt Lake for the purpose of deciding upon a certain fire truck, recommended that the city purchase automobile fire apparatus at once, and, acting upon their suggestion, the council authorized the purchase of a Reo fire truck, recommending that the same be purchased from the Brigham Auto Supply company.

Mr. Levi, representing Levi, Cowan & Bartlett, appeared in regard to a franchise for his company to construct and maintain a gas distributing system in Brigham City. The franchise was granted and the company given twelve months in which to commence operations. The promoters propose securing their gas from gas wells now being bored west of the city.

GREEK KILLS A MAN WITH KNIFE

Colton, Aug. 14.—In a knife battle between Jim Kallos, a Greek, and Jose Sanchez, a Mexican, fought in the D. & R. G. yards, at an early hour this morning, the Mexican received wounds in the throat from which he bled to death in a few minutes, while the Greek escaped with a few severe scalp wounds. Kallos was arrested by Deputy Sheriff C. H. Clark and taken to Provo, where he is held in the county jail. Officer Clark also took the body of the Mexican to Provo.

Sheriff Henry East of Utah county came up from Provo and learned that Kallos first became involved in a quarrel with Celerios Gook, a companion of Sanchez. It is said that the Greek went into his room, secured a knife and returned to attack Sanchez, Gook having fled. All of the parties to the trouble were employed as section hands.

Kallos, who admits using the knife upon his victim, has little to say, only asserting that he used his knife in self-defense after being set upon by the Mexican and two of his companions whom he did not know. Kallos gives his age as 25. The Mexican appears to be about 35.

WORK ON NEW ROAD

PROGRESSING NICELY

Salt Lake, Aug. 15.—W. C. Orem, president of the Salt Lake & Utah railway, returned yesterday from a trip to the company's construction camps. He reports the work to be progressing satisfactorily and said last night that the road would be completed between this city and Provo by January 1, 1914. Discussing the progress, Mr. Orem said:

"There are eight big outfits at work between here and Provo, and they are moving lots of dirt. We have men at work laying track at Lehi and intend to have the road ready for traffic by the end of this year as far as Provo. I went to Payson today over the line of work and have nothing to complain about. In addition to the grading contractors, there are several bridge building gangs at work."

M. S. BROWNING HEAD OF THE PRINCE CON.

The special stockholders' meeting of the Prince Consolidated company was held in the Salt Lake offices of the company Thursday morning at which there were 965,763 shares of stock represented. As anticipated, the resignations of the directors representing the Charles E. Knox interests were presented and accepted, and a vote of appreciation passed for the character of services rendered by the retiring board.

The directors resigning were Chas. E. Knox, William H. Webber, A. Y. Smith and James L. Hackett. The death of John A. Kirby in July, who was a director of the organization, necessitated the filling of this vacancy, and the shareholders selected the following named to be directors for the ensuing year: M. S. Browning, H. P. Clark, A. H. Godbe, E. L. Godbe and George F. Wasson.

A report upon mine conditions, future prospects and past performances during the Knox regime was submitted, and it was decided to have the accounts of the company audited from the time of the Knox assumption of control to the present time, this suggestion being made by Mr. Knox. When the report of J. W. Edmonds, expert accountant, is ready, it will be submitted to the shareholders, together with a statement of production, earnings, etc.

One of the largest individual shareholders is Mr. Hackett of Louisville, and it is stated that he was tendered the time of the Knox assumption of control to the present time, this suggestion being made by Mr. Knox. When the report of J. W. Edmonds, expert accountant, is ready, it will be submitted to the shareholders, together with a statement of production, earnings, etc.

Mr. Knox made a suggestion at the meeting which was received with considerable attention. This was the recommendation that a new and larger shaft be driven to the 1000-foot level, the estimated cost of which would be about \$100,000, which shaft would open new resources at depth and afford a far better outlet for the mine production as well. This is a matter that will be left in the care of the directors. Mr. Knox believes that with better depth the Prince mine will open even larger and better than it ever has.

At the meeting of directors following the shareholders' session, the following officials were selected: President, M. S. Browning; vice president, Ernest L. Godbe; treasurer, Harry P. Clark; Murray C. Godbe continues as secretary of the organization. The board has not yet determined upon the selection of a general manager of the company.

AXEL STEELE IN FEAR OF DEATH

Salt Lake, Aug. 15.—Axel H. Steele, deputy sheriff, who was threatened Wednesday by an I. W. W. agitator, was carefully guarded all day yesterday. He did not appear in public un-

less at least two of his friends were with him. Members of the Steele faction were stationed about the places frequented by Steele on East Second South street.

Two men, who are said to have asked for Steele several times yesterday morning and who excited the suspicion of police officers and others by loitering near places where Steele is usually to be found, were finally arrested yesterday afternoon at the suggestion of Steele's friends.

At police headquarters the men gave their names as Roy Rayner, 24 years of age, and M. Hanson, 24 years of age. Both denied that they were members of the Industrial Workers organization.

Patrolman Lester F. Wire who is stationed on Second South street between Main and State streets on the morning shift, and who was suspicious of the two, said yesterday:

"While they did not do anything wrong, their general appearance excited my suspicion. I asked several persons concerning them, and no one seemed to know. One man told me that the two had asked where Steele could be found."

The first act of violence towards the aggressors was made Wednesday night. Four men attacked A. L. Coray on Commercial street, and were not for his agility he would have been badly beaten. Coray is the "little" man who pulled Morgan from his soap box Tuesday night.

Coray was walking along Commercial street when he was stopped by four men who seemed to desire to tell him something in confidence. Before he knew it the thugs had taken him by the throat and begun choking him. Coray managed to squirm from their clutches and made his escape. By so doing his clothes were torn into shreds. Coray's only mark is a small lump over one eye.

Reports that numerous I. W. W.'s were flocking into the city were heard yesterday from many sources. While, perhaps, some new Workers have arrived, the 10,000 predicted by Morgan yesterday was certainly not in evidence. Rumors have it that the Workers will attempt to start a meeting at Commercial street and Orpheum alley tomorrow night.

James P. Morgan and Thomas Murphy, members of the I. W. W. who were arrested during the riot Tuesday night, were arraigned yesterday before City Judge N. H. Tanner. Information sworn to against Murphy by Thomas D. Price and Axel H. Steele, charged assault with intent to murder and assault with a deadly weapon. Information sworn to by Steele alone charged Morgan with assault with intent to murder and assault with a deadly weapon. Both men pleaded not guilty to the charges and were ordered held under \$1000 bonds.

WESTGUARD WILL BE IN SALT LAKE SOON

Denver, Colo., Aug. 14.—A meeting of the Midland Trail association was held this morning at the chamber of commerce which was attended by representatives from the various towns in Kansas and Colorado along the proposed route. The meeting was called because of reports recently that the route as logged by E. L. Westgard would not be selected because of the lack of co-operation by Utah and the poor condition of the highway in that state.

Statements were read at the meeting saying that it would cost the entire \$10,000,000 to be raised by the American Automobile association to construct and maintain a highway

over the Midland Trail route. This statement was challenged by a number present.

President Yetter said that Westgard would be in Salt Lake City a week and that he would return over the Vernal route to Denver, and that a report from him on the feasibility of that route, as compared with the Midland trail, could be obtained by the last of this month.

A committee was appointed at the meeting to confer with Utah highway officials and Governor Spry to ascertain what they will do toward improving the highway in Utah, and resolutions were also adopted to ask the government to send engineers to survey the different routes.

PARCEL POST WEIGHT LARGER

Beginning today, the limit of weight of parcels of fourth-class mail for delivery within the first and second zones will be increased from eleven to twenty pounds. The rate of postage on parcels exceeding four ounces will be five cents for the first pound and one cent for each additional pound or fraction thereof. According to changes that go into effect today, fresh meats and other articles will be accepted for delivery to offices within the two zones.
